## THE CANADIAN CK STEM COMPETITIONS - 2022

Help us to make a **BIGGER IMPACT** in 2022

### Canadian Summer Contest 2022

The Canadian Summer Contests - 2022 are conducted by CKSTEM. These competitions allow students to compete in three areas: Mathematics, Computing, Public Speaking & Debate. Specially designed activities will help students stay engaged during late spring and summer as they provide continuous learning. It also helps them prepare for the new school year. In addition, competitions boost confidence, curiosity, logic, leadership and teach teamwork. CKSTEM provides all participants with engaging material, resources and specially created videos to train, thereby providing them with a complete learning experience.

### What is CK STEM?

Competitive Kids STEM (CKSTEM) is a volunteer-run, nonprofit organization that enhances kids' education by enabling them to achieve excellence. In addition, they empower students to compete globally through a unique set of STEM contests. These competitions allow students to extend themselves, explore their capabilities and maximize their true potential.

### Our Unique Approach

Participating in competitions help students develop invaluable skills such as creative problem-solving and big-picture thinking. It also helps prepare young learners to take on more significant challenges in addition to building their confidence and desire to excel. Our key focus is to make students "future ready" through the best portfolio of global contests in STEM.
