

1. Determine whether you hear a masculine or feminine adjective.

Example: **canadien** – **canadienne**
amusant – **amusante**

2. Masculine and Feminine – Nationalités

example – Georges est **canadien**, Céline est **canadienne**

3. Describe the person

example – Pauline (fille – **mignon**)

Pauline est une fille **mignonne**

** Remember to add an s if you are describing more than one person. Example: Anne et Valérie sont **mignonnes**.

In order to make a adjective feminine add an **e** if the adjective does not already end in the letter **e**.

Note the exceptions:

gentil – **gentille**

mignon – **mignonne**

(double the consonant and add an **e**)

4. Describe two friends or members of your family one male and the other female. Use two adjectives for each person.

Ma mère est **belle** et **intelligente**.

Mon chien est **petit** et **mignon**.
