Dear Students and Families:

Stelly's would like to invite you to our **Explorations: Grades 9 to 12 and Beyond** event on February 15th from 5:30 to 7:00pm. This will be an opportunity for you to discover the diverse activities, events and learning opportunities that are available to students of all grades who attend Stelly's Secondary School. You will have the opportunity to meet staff and students to gather valuable information to help make important decisions about your future.

Known as "The People Place", Stelly's staff prides itself in creating an educational environment that caters to a diverse range of learners. Whether you are looking for academic rigour; the desire to expand your language skills through French Immersion, Japanese, Spanish, or core French; to develop your talents in "The Heart Of The Arts" Program; explore the trades; or engage in extensive outdoor education, climbing and athletic programs -- the choice is yours!

Along with the offerings listed above, Stelly's has program links with Camosun College and the University of Victoria and offers Advanced Placement courses and Youth Work In Trades programs to support student as they work towards graduation. Other post-secondary opportunities, including scholarships, are also available to Stelly's students.

At Stelly's we recognize that learning does not just occur within the walls of a classroom, but in every opportunity that occurs within the scope of a school environment. This is why students will find an abundance of teams and clubs along with opportunities to demonstrate citizenship, social responsibility, leadership and collaboration through a variety of local and international experiences which are supported through programs and by the teachers. It is our desire to work with family and community to foster the development of well-rounded, well-educated, socially responsible and globally conscious contributing members of society.

Why is attending the **Explorations: Grades 9 to 12 and Beyond** event so important?

- Most students entering high school do not have a clear understanding as to where their future will take them.
- Today, there are multiple pathways that lead to graduation.
- Requirements for graduation and for entry into post-secondary are in flux.
- As new programs and educational partnerships evolve it is important to stay abreast of the exciting opportunities as some more than others may be in your best interest .

This year we will also be offering some pre-event sessions beginning at 5pm on: Anxiety Support, The Duke of Edinburgh Awards Program, Indigenous Department Orientation, and Learning Services Meet and Greet. The evening will also include Post Secondary, Gap Year, and Scholarship presentations as well as Course Selection presentations and support.

We believe we are "The People Place" and after February 15th, we know you will, too.

Sally Hansen
School Principal
