

Excellent care, for everyone,
everywhere, every time.

IMPORTANT NOTICE

Attention Parents of Grade 6 students Re: Possible School Closure

As you may be aware, Public Health had planned to provide Grade 6 students their immunizations at the school on Wednesday October 30. The school district has announced that the union representing support staff in School District 63 have served strike notice.

In the event that the strike occurs and continues into Wednesday October 30, we will not be able to provide the immunizations at the school. We are strongly encouraging parents of Grade 6 students to bring their child into the Peninsula Health Unit where we can provide their immunizations.

When: Wednesday October 30, 2019
Where: 2170 Mt. Newton Cross Road, Peninsula Health Unit
Time: Please bring your child in between 8:45-12:00

We will provide an update to parents who are unable to make it to the health unit on the date above once we know more about the situation in the district.

Thanks,
